# A SCIENTIFICALLY DESIGNED MEAL THAT SUPPORTS OPTIMAL HEALTH AND BOOSTS THE GROWTH OF FINISHING CATTLE.

## INGREDIENTS/BENEFITS

### Crushed protein meals

A high quality source of protein and energy to maximize growth and support for finishing beef cattle.

### Micro & Macro Minerals

A range of minerals such as calcium, phosphorus, magnesium, and sulphur to ensure good rumen function and maintain cattle health.

### Essential Vitamins

Vitamins A, D and E to meet their essential vitamin intake requirements.

### Rumen Buffers

Optimise rumen health, maximize feed conversion efficiency and decrease the risk of grain poisoning.

### Canola oil

Ensures the crushed grain mix is perfectly blended and suppresses dust whilst improving palatability.

## NUTRITIONAL ANALYSIS

Minimum Crude Protein %	16%
Maximum ADF %	40%
Minimum ME	12.5 MJ/ME
Maximum Starch	50%

## FEEDING DIRECTIONS

- Ad lib from 500grams to start, up to 4kg depending on live weight.
