SUITABLE FROM WEANING AND DURING PREGNANCY.

# A HIGH ENERGY AND PROTEIN RATION DESIGNED FOR LAMBS AND PREGNANT EWES.

## INGREDIENTS/BENEFITS

### Crushed Cereal grains

A concentrated source of high protein and energy to support fast growing lambs and maintain pregnant ewes.

### Plant proteins

Source of vitamin A & E.

### Essential Vitamins & minerals

Providing lambs their essential vitamins that they cannot otherwise produce themselves to increase and support healthy growth.

### Rumen Buffers

Maintains a healthy rumen, minimises digestive upsets and reduces the risk of grain poisoning.

### Sodium Monensin

Increases feed conversion efficiency and improves weight gain.

### Canola oil

Ensures the crushed grain mix is perfectly blended and suppresses dust whilst improving palatability.

## NUTRITIONAL ANALYSIS

|                         |            |
|-------------------------|------------|
| Minimum Crude Protein % | 16%        |
| Maximum ADF %           | 40%        |
| Minimum ME              | 12.5 mj/kg |
| Maximum Starch          | 50%        |

## FEEDING DIRECTIONS

- Best fed at 0.250g per lamb per day, up to 1.5kg per lamb per day ad lib, built up over 6 weeks.
